LIBRARY OVERVIEW

=====

=====

This library contains custom weighting profiles for 100+ of the most commonly recruited job roles in the UK market. Each profile assigns percentage weights to the 44 Universal Traits, totaling 100% per role.

WEIGHTING METHODOLOGY:

- Weights are based on recruitment industry research and hiring trends
- Higher weights = greater importance for that specific role
- All 44 traits are included; weights of 0% indicate minimal relevance
- Profiles are optimized for UK market expectations and standards

USAGE:

1. Identify candidate's target job role from this library
2. Apply corresponding weights to their trait scores (1-5)
3. Calculate: $\Sigma(\text{Trait Score} \times \text{Weight}) = \text{Final Match Score (0-100)}$

=====

=====

TRAIT CATEGORIES REFERENCE

=====

=====

CATEGORY 1: Experience Architecture (Traits 1-5)
CATEGORY 2: Educational Foundation (Traits 6-9)
CATEGORY 3: Technical Capability (Traits 10-14)
CATEGORY 4: Impact & Achievement (Traits 15-19)
CATEGORY 5: Leadership Footprint (Traits 20-23)
CATEGORY 6: Communication Proficiency (Traits 24-27)
CATEGORY 7: Adaptability & Growth (Traits 28-32)

CATEGORY 8: Problem-Solving Capacity (Traits 33-36)
CATEGORY 9: Work Ethic & Drive (Traits 37-40)
CATEGORY 10: Cultural & Collaboration (Traits 41-44)
